

SOAP BASED ON HUMIC ACIDS

**ARMEC**  **BIO**

THE HEALTH AND BEAUTY OF YOUR SKIN

Today we want to share with you an amazing product – Armecobio soap based on humic acids.

This is an eco-friendly soap created specifically for those who appreciate natural ingredients and take care of their health.

## CHEMICAL COMPOSITION

- **Peat:** contains unique substances that help to cleanse the skin of impurities and toxins.

---

- **Tea tree:** a source of intellectual lightness, activates the processes of perception and memorization of information. Promotes the recovery of the body after stress, relieves the feeling of anxiety, promotes attention concentration.

---

- **Lemon:** has bactericidal, anti-inflammatory and antiviral properties, it's a good antiseptic and an excellent antifungal agent.

---

- **Mint:** makes the skin not only clean, but also pleasant-smelling.

Also, Armecobio soap contains himatomelan,  
humic and  
20 more amino acids,  
6 groups of vitamins,  
32 macro and microelements in chelated form.

High-quality natural handmade soap Armecobio is made from a mixture of vegetable oils and medicinal humic acids.

It has a black color and a subtle spicy aroma.

---

Peat particles act as the most gentle exfoliant, so that the soap has excellent cleansing ability.

---

Humic acids contained in peat enhance cellular metabolism, strengthen capillaries, reduce puffiness, thus making the skin recover faster and acquire a healthy look.

---

Armecobio soap is useful for daily care not only for normal, but also for sensitive, irritated, dehydrated skin.

It is hand made under the strictest compliance with the technology process, in accordance with the principles of phytotherapy and aromatherapy.

It does not contain animal products or synthetic additives. The composition includes a cocktail of vegetable and essential oils, as well as extracts of herbs and plants.

When boiling Armecobio soap, cold production process is exclusively used, thus allowing to preserve all the nourishing and moisturizing elements of natural ingredients.

## COSMETIC USE

The external use of humic acid is no less effective than the internal one.

It is used in cosmetology for therapeutic masks, baths, wraps, creams, shampoos, soaps.

As a result, toxic substances present in the skin and provoking allergic manifestations and other pathologies, get eliminated.
